

Mathematics Mastery

- This term focuses on the following:
 - *Money*: Complete the unit started in Summer 1 by adding and subtracting money, exchanging money for items, and calculating change.
 - *Multiplication and Division*: Develop these concepts by using repeated addition, exploring arrays, and sharing or grouping.
 - *Capacity and Volume*: Explore the link between capacity and containers, including identifying their volume when filled with a liquid.

Science: Common Plants

- Pupils in this unit will learn what categorises an organism as a plant, how a plant is made up of several different parts, as well as identifying specific species of plant that are common to their local area. Through this learning, pupils will end their unit by discussing the reasons that plants are important to life on Earth.

Challenge Curriculum (History)

- Pupils over the course of this unit will explore how attitudes toward the seaside have changed over the past 200 years. We will learn about seaside holidays in the Victorian era, and the sorts of activities they would enjoy. We will then compare and contrast this to activities we enjoy at the beach today.

Sports, Health and Fitness

- *Fitness*: Children will 'step to the beat' by practicing a series of movements in time to the beat of the music.
- *Health*: Children will learn about healthy lifestyles.
- *Sports*: Children will continue their 'active athletics' unit, mastering basic movements such as running, jumping, throwing, and catching.

ICT

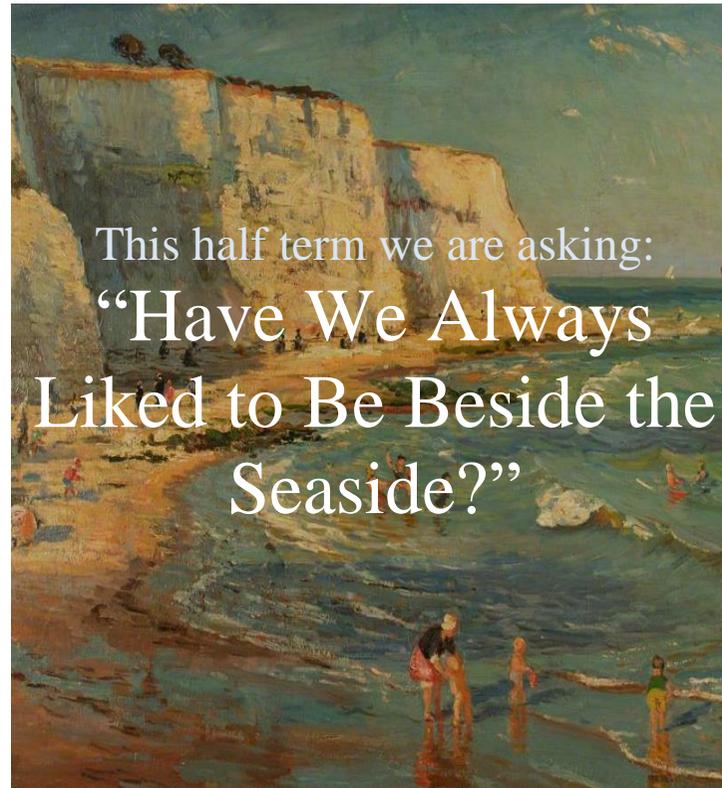

- The children will continue to build on the skills learnt during school closure and applying that to online safety as well as using technology for research in their other subjects.

French

- This term, pupils will continue to expand on their vocabulary of animals. They will begin to create short sentences using verbs.

Religious Education

- This term, Potter Class will be focusing on Islam. Pupils will learn about different Islamic teachings and values and how Muslims live today.
- We will have a day focused on Islam and the lives of Muslims during the term.

Enrichment Activities

- Children will spend time on Friday afternoon each week sharing their news, experiences and their home learning to develop confidence in public speaking.
- Year 1 will be attending an intensive swimming course for weeks commencing 14th and 21st June. They will attend a class every day over a two-week period. For more information, please refer to the letter sent via the school office.

Cooking: Fruit Kebabs

- By the end of this term, children will make their own fruit kebabs. They will, firstly, understand how fruit makes up part of a healthy diet. Then, they will learn how use tools safely when chopping fruit. Finally, they will plan their own fruit kebab and follow this carefully, evaluating the outcome and suggesting improvements for next time.

Literacy

Our focus text in Literacy this term will be *Julian is a Mermaid* by Jessica Love. We will be creating a narrative by retelling the story in a different way, and then ending our summer term by writing an explanation of why we should look after the seaside.

Reading

We will continue to focus on one book a week in our shared reading, linked to the theme of the seaside. During these lessons we will be using an abridged version of the Ark 5-day reading model to focus on vocabulary, summarising and literal and inferential questions.

Home Learning

- Please continue to look out each week in the newsletter for a focus question or activity for home learning each week. This should be uploaded to Seesaw.
- Pupils will have a chance to share their Home Learning on a Friday afternoon.
- Spellings will be sent home each week, which will be tested on Monday. If you wish to help your children improve spelling, please search the internet for the "top 200 High Frequency words".
